## MIMI STUD DINING CHAIR

### Dining Chairs

With its edgiest look to date, the classic Mimi dining chair goes punk in studded leather. The seat and front is clad in Safari Black, a truly rugged leather with a natural, lived-in patina and a dry texture, almost like suede, complemented by black chair legs. Brass-studded Safari leather covers the back of the chair, with piped detailing around the edge for a more tailored feel. With a flared back and generously padded seat for comfort, the Mimi Stud dining chair merges classic styling with an audaciously modern take on glamour. Available with or without arms.
