## CRYSTAL CANDLE FLOOR LAMP

### Floor Lamps

Takes inspiration from the glamorous Art Deco period, the Classic Crystal Bar pairs Italian moonstone marble with herringbone K9 optical glass fixed by steel or brass panels. The moonstone has a natural translucent quality, which reflects a soft glow just like moonlight. The modular design is available in 1 metre sections that can be configured to suit your space. Lighting components are not included and must be purchased and assembled locally. The bar interior is available separately through our recommended kitchen specialists.
