

TIMOTHY OULTON

JUNK ART PROPELLER SQUARE

Coffee Tables

The distinctive Junk Art coffee table is handcrafted from the propellers of decommissioned Chinese fishing junks, topped with a simple pane of tempered glass. The reclaimed propeller, which once roared into life over the seas, lends its history and authenticity to these one of a kind pieces. The propeller on the small size coffee table is supported by a small round metal base for stability. Style may vary slightly from piece to piece, due to the different dimensions and shape of each propeller.

SPECIFICATION

Product Code:	T-JUK-TF-0001-Z
Product Height:	40cm / 16"
Product Width:	160cm / 63"
Product Depth:	160cm / 63"
Weight:	385kg / 849lbs
Bulb Included:	No
