## ICEBERG DINING TABLE

### Dining Tables

Encapsulating the elemental power of ice through its strong architectural aesthetic, the Iceberg dining table floats three sleek glass planks atop a rigid steel frame. The glass has been cast with a unique rippled texture to evoke frozen blocks of water. Each plank has a smooth underside, and can simply be carefully lifted and turned if preferred. Small white markings may appear within the grooves of the rippled side, this is a characteristic of the glass and part of the design.
